- 3. Scroll wheel / Middle button
- 4. LED charging indicator
- 5. DPI button
- 6. Forward button
- 7. Back button
- 8. On/Off switch
- 9. Battery compartment
- 10. USB Type-C charging port

Main Functions

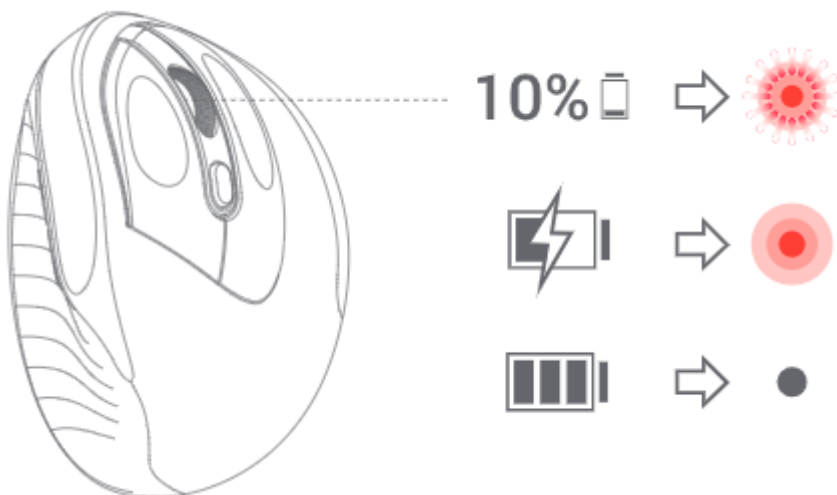

Switching on and off the device

To switch on/off your *Office Mouse 5 Comfy*, move the switch as shown in the picture.

Important: We recommend switching off the *Office Mouse 5 Comfy* to prevent unnecessary power consumption over long periods of time.

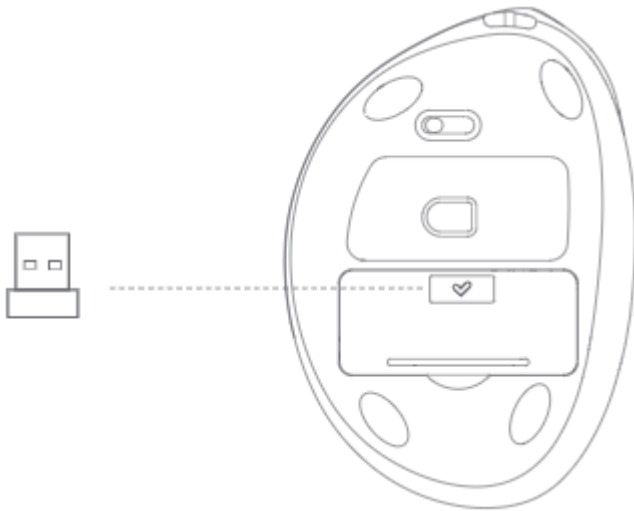

Charging the battery

When the battery level is below 10%, the *LED charging indicator (4)* will start flashing. Plug the USB Type-C end of the provided cable into the *USB Type-C charging port (10)*, and the other end into a 5 V USB charging device (PC, USB wall charger, etc.) to charge the battery. The *LED charging indicator (4)* lights up and switches off once the charging process is complete.

***IMPORTANT:** The *Office Mouse 5 Comfy** features a 3.7 V/500 mAh lithium-polymer battery which can be replaced with one with the same characteristics if needed. Battery replacement should be carried out by qualified staff of Energy Sistem Technology, S.A.

Connecting the device to the PC

To connect the mouse to the PC, open the lid of the *Battery compartment (9)* first. Take out the USB dongle and plug it into the PC's USB port. No drivers or software installation is required. Once the dongle is plugged into the PC, you can start using your *Office Mouse 5 Comfy*.

Adjusting DPI

Adjust *Office Mouse 5 Comfy* DPI (dots per inch) to set the precision and tracking speed that suit you best. Press the *DPI button (5)* to select one of the values: 1000, 1200 or 1600 DPI.

Warranty
